

Rezūm™

Water Vapour Therapy

Sustained clinical outcomes through 5 years¹

Final study results demonstrate Rezūm™ Water Vapour Therapy is a safe and efficient BPH treatment that **effectively relieves symptoms and preserves sexual function** out to 5 years.

Long-term Durability

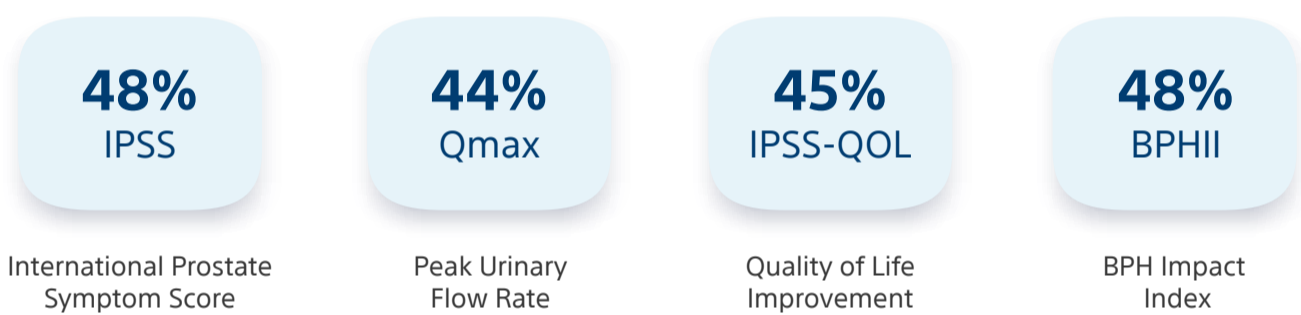

Rezūm uses convective energy to remove obstructive prostate tissue with a surgical retreatment rate of only 4.4% at 5 years.

Surgical retreatment rates after Rezūm™ treatment

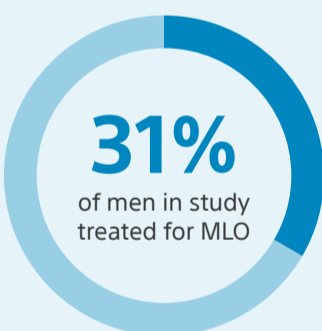

Sustained Symptom Relief and QOL Improvements

Compared to baseline

Versatile to Treat Median Lobe Obstruction (MLO)

- Rezūm can treat lateral and central zones without physicians having to learn an advanced technique

Positive Safety Profile and Preserves Sexual Function

- No late occurring adverse events or de novo erectile dysfunction reported at 5 years
